compatible with
general filter holder

190120-02

compatible with
Rocker S.S funnel

190100-02/190110-02/190120-02, WaterVac Vacuum Filtration System

Features:

- **Save 70% bench space**

The compact design of 190100-02 vacuum filtration system is ideal for use on the work bench and in the laminar flow hood where its small size will save precious space.

- **Filtration without waste bottle**

No suction ask and waste bottle design save a lot bench sapce and save time to empty waste bottle.

- **Versatile**

Replaceable funnel base design makes 190100-02 compatible with various kinds of lter holder.

- **Easy Operation:**

Simply put on membrane on filter holder and push on/off button to start ltration easily.

Applications:

- Microbiological Filtration Technique for analyzing aqueous-based uids for microbial contamination.
- Suspended Solid test for municipal, surface, ground and drinking water.
- General ltration without the need of collecting ltrate.
